## Full-Stack Web Developer

### PROFILE

---

I'm an aspiring Web Developer with the current routine of eat, sleep, code. I'm currently attending Actualize and becoming familiar with multiple languages and frameworks. Facing new, complex challenges is something that gives me a rush like no other.

### PROJECTS

---

#### Skatr

Use this space to write a few sentences about your Capstone project. Tell us what it's for and who the intended users are. Explain how a user might leverage your app, and talk about the important features. Finally, talk a bit about how your app was built, which languages, frameworks, technologies, and APIs, you used, etc. You can also include a sentence on why you chose to build this app.
